All about flu and how to stop getting it

Simple version

**HELP US
HELP YOU**

PROTECT AGAINST FLU

Flu **i**mmunisation

Helping to protect everyone,
at every age

Anyone can catch flu.

Flu is caused by
a bug called a

virus

Flu can make
you feel ill.

If you are very ill you
might even need
to go to hospital.

Here are the signs of flu.

blocked up nose

painful ear

sore throat

high temperature

difficulty breathing

dry cough

tiredness

aches

Who should have a flu jab?

People who are more likely to get very ill from flu should have a flu jab. This includes those:

**65 years
and older**

Pregnant

**With a health
condition like
heart disease,
diabetes or
asthma**

Ask your GP practice or pharmacy
if you think you might need a flu jab.

The flu jab is an injection in your arm.

Having a flu jab can help stop you catching flu and passing it on to other people.

The best time to have a jab is in the **autumn**.

You need a jab every year as flu can change each year.

Will the jab make me feel ill?

After a flu jab you may:

But do not worry, if you do feel ill,
it will go away in a few days.

What do I need to do to get a flu jab?

Your doctors should get in touch with you to come in for a jab.

You can also ask your pharmacy for a jab.

If they don't get in touch, you should contact them to arrange to have one.

"Hello, can I have a flu jab please?"

If you have any questions or want more information, talk to your nurse, doctor or the person in the chemists called the pharmacist.
